EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Amend the paragraph at page 1, lines 5-8, to read:

--This is a Continuation of co-pending U.S. Patent Application No. 10/327,072, filed December 24, 2002, now Patent No. 6,741,723, the entire contents of which are incorporated herein by reference, and which is a Continuation Application of PCT Application No. PCT/JP02/04083, filed April 24, 2002, which was not published under PCT Article 21(2) in English.--

2. The following is an examiner's statement of reasons for allowance: As pointed out by applicant in the remarks on pages 10-12 of the response filed 10 January 2005, Petrovic fails to teach or suggest controlling or shifting the phase of a specific frequency component signal of an image in accordance with watermark information and superposing the phase-controlled or phase-shifted specific frequency component on the image signal, as variously stipulated by claims 1, 21, 28 and 36. Further, Petrovic also fails to teach or suggest controlling at least the phase of a specific frequency component extracted from an image in which watermark information is embedded and correlating the phase-controlled specific frequency component with the input image to extract the watermark information, as variously stipulated by claims 28, 32 and 39. Therefore, each of these claims is allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1, 3, 21-22, 23 and 24-39 (now renumbered for issue as 1, 2, 4-5, 3 and 6-21, respectively) are allowed.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Johns whose telephone number is (571) 272-7391.
